

Centreville, Virginia, on the occasion of his retirement at the end of February after 38 years of public service with the Internal Revenue Service.

Throughout his tenure with the IRS, Mr. Falcone provided an example of model leadership through his work in both tax administration and later in support operations. He served in various roles such as Director of Facilities and Operations, Director of Real Estate and Facilities Management, IRS Human Capital Officer, and the first acting Chief of Mission Assurance. During his career, Mr. Falcone assisted with many successful initiatives, including the reorganization of the IRS following the passage of the Restructuring and Reform Act of 1998. He also played a role in establishing the Mission Assurance organization following the September 11th terrorist attacks. That effort instituted new safeguards for the tax administration and assured the safety of its employees, facilities, and information systems. In addition, Mr. Falcone assisted in reducing the size of the IRS' real estate portfolio to realize operation efficiencies.

Mr. Speaker, I ask that my colleagues join me in recognizing Mr. Falcone for his lifelong service to our constituents. His distinguished career and accomplishments serve as a reminder of the great value of public service to our country, and I congratulate him on his retirement.

IN RECOGNITION OF DR. MARY
ELLEN WEBER

HON. MICHAEL C. BURGESS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 7, 2012

Mr. BURGESS. Mr. Speaker, I rise today to honor a remarkable woman, Dr. Mary Ellen Weber. She is a veteran Astronaut, an instrument-rated pilot, a world-class skydiver, and Vice President of Government Affairs and Policy at the University of Texas Southwestern Medical Center at Dallas.

As a NASA Astronaut for ten years, Dr. Weber inspired and awed our nation by completing two Space Shuttle flights, 297 earth orbits, and traveling 7.8 million miles. Among the youngest Astronauts ever to venture into space, she served as a pioneer for space exploration by flying aboard the Atlantis on mission STS-101. The mission was a critical early construction project for the International Space Station, in which she spent over eighteen days in space. She helped launch \$200 million communications satellite into Earth orbit when she flew aboard Discovery in 1995 on mission STS-70. After holding prestigious positions relaying reports to NASA's highest directors, she was awarded the NASA Exceptional Service Medal.

Not only is she a veteran in space, but she is an avid skydiver and pilot. She shares a world record for the largest freefall formation with 300 skydivers. She has logged over 4,000 skydives, and received twelve silver and bronze medals from the U.S. National Skydiving Championships. In addition, she is an instrument-rated pilot with over 600 hours in NASA's jet aircraft.

Dr. Weber was destined to share her knowledge of science. She received an M.B.A. from Southern Methodist University, a Ph.D. in

physical chemistry from the University of California at Berkeley, and a B.S. in chemical engineering from Purdue University. She published eight scientific papers and received one patent. In 2003, she became Vice President of Government Affairs and Policy at the University of Texas Southwestern Medical Center. UT Southwestern Medical Center is one highest acclaimed medical school, research, and hospital complex in Dallas, Texas.

I was sworn in as a Member of Congress in 2003 and that is how I met Dr. Weber in her role with UT Southwestern Medical Center. With her support and leadership, we were able to create a Health Care Fellowship between my office and UT Southwestern Medical Center. This successful program has provided what has become a very well regarded opportunity for Medical Doctors to have a front row seat in Congress to participate in the health care policy process. We have also partnered with UT Southwestern Medical Center on several joint events on their campus in Dallas. The Fellowship and events could not have been successfully executed without the guidance provided by Dr. Weber and the leadership at UT Southwestern.

On February 8, 2012, Dr. Weber will be leaving UT Southwestern after nine years in government affairs. Her contribution to the NASA's space program and UT Southwestern Medical Center has been unprecedented and her departure will soon leave a void in many hearts. It is my great privilege to recognize Dr. Mary Ellen Weber for the ingenuity and commitment she has shown to the people of UT Southwestern, NASA, and our Nation.

TO EXTEND THE PAY LIMITATION
FOR MEMBERS OF CONGRESS
AND FEDERAL EMPLOYEES

SPEECH OF

HON. ROBERT J. WITTMAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 1, 2012

Mr. WITTMAN. Madam Speaker, I don't think there is anyone in this country who supports increasing pay for Members of Congress. I certainly don't, which is why I voted in favor of H.R. 3835 on Wednesday. Throughout my tenure in this body, I have continually voted to cut, freeze, and otherwise limit pay for Members. With so many folks across Virginia's First District and the nation struggling to feed their families or find a job, Congress has got to lead by example and show that it is serious about tackling this country's economic woes in a responsible manner.

An important part of being responsible, however, is the ability to be fair, and I fear that H.R. 3835 sets an unfair precedent by targeting a particular group of public servants who are already tasked to do so much for their country: federal employees. Government workers have been under a pay freeze since December of 2010, and this legislation would extend that freeze through 2013. These hard-working patriots serve our nation on a daily basis, whether it be keeping our skies safe for travelers with the FAA or supporting our troops on the front lines of the war on terror with the CIA. From the lowest GS-1 to the highest GS-15, the federal workforce is full of dedicated and committed citizens who exem-

plify patriotism in everything they do. There is no question that changing the unsustainable trajectory of this nation will take sacrifice from us all, but continually singling out federal employees is an ineffective and unjustified response to the nation's fiscal struggles.

Although I have serious concerns with the federal employee pay freeze, I ultimately voted for this legislation because Congress must lead by example and freeze our own pay first. I would like to remind my colleagues that long after we are all gone, federal employees will continue to selflessly serve this nation, as they have since its inception. Repeatedly singling them out is no way to thank them for their dedicated contributions. I am hopeful that future deficit reduction efforts in this body will focus on more realistic methods of savings that truly address the drivers of our debt so that we can foster an environment of job creation and prosperity in this country.

TRIBUTE TO THE LIFE AND SERVICE
OF OFFICER STEVEN DION
GREEN, SR.

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 7, 2012

Mr. BONNER. Mr. Speaker, it is with a heavy heart that I rise today to honor the service of a fallen hero, Officer Steven Green of the Mobile, Alabama Police Department, who recently gave his life in the line of duty.

On February 3, 2012, Officer Green, age 36, was fatally wounded while transporting a robbery suspect. Mobile feels the deep pain of the loss of this young, dedicated protector of the peace. His untimely death has deeply saddened our community and even moved others from around the nation to add their many voices to the long list of those offering condolences to his family.

Officer Green dutifully served the Mobile Police Department and the people of Mobile since May 2010. He was stationed to the Department in the First Precinct and was on assignment in the Fifth Precinct at the time of his death.

A native of Mobile, Officer Green was a graduate of Blount High School where he distinguished himself as an outstanding athlete and member of the Varsity Football team. After high school, he contributed his considerable athletic talents and love of sports to the service of young people by coaching Little League Football.

Mr. Speaker, there is a special calling for those who would lay down their lives to guarantee the safety of others. Those who answer this call to serve with courage and conviction often don't seek the limelight or reward . . . they do what they do because they know it is right. Officer Steven Green was just such a person.

Officer Green is survived by a very large and loving family, including his dear wife, Valerie, and their lovely children, Jasmine, Tariyah, and Steven, Jr.

On behalf of the people of Mobile and South Alabama, I offer my deepest condolences to each of them and to all of Officer Green's many family, friends and fellow officers. You will never be far from our hearts as we all reflect upon the devoted service of Officer Green. May God bless you all.
